August 15th, 2014

The Alliance for Bangladesh Worker Safety is publicly releasing supplier information for the more than 591 factories and estimated 1.1 million workers represented by its membership. The list contains notation of factories also manufacturing goods for members of the Accord on Fire and Building Safety, as indicated with an asterisk (*). Shared suppliers make up approximately 57% (338 factories) of the Alliance factory list, further highlighting the need for combined efforts on behalf of garment industry workers. By releasing this information, the Alliance for Bangladesh Worker Safety hopes to be taking yet another step towards partnership on coordinated trainings, inspections and remedial support. Achieving this will require concerted and sustained efforts to work with government, the International Labour Organization (ILO), industry, workers, factory management and civil society. In accordance with the Alliance Member's Agreement, the full list of factories was shared with the Fair Factories Clearinghouse in September 2013, and continues to be updated. The list represents input from the majority of Alliance members. The Alliance recognizes that this factory list is a work in progress, and will be working to validate and update details over the coming months as new members complete their internal processes for sharing factory information.
